

WORK PERMITS TRAINING

There are two courses available focused on managing and working within work permit systems.

Permit Issuer/Permit Receiver - The course provides people with the skills and knowledge to work within work permit systems. This includes an introduction to work permit systems and processes including applying for and receiving work permits. It also clearly identifies roles and responsibilities when it comes to preparing for or performing Work Permit activities.

Managing Work Permit Systems and Safety Observer Responsibilities - The course outlines the procedures and control required when working with work permits and the Safety Observer's responsibilities in controlling and monitoring activities.

NZQA Unit Standards

Permit Issuer/Permit Receiver Unit Standards in this course include:

- US: 17588 Apply for, accept, and carry out work according to a work permit in the workplace
- US: 17590 Issue worksite specific work permits

Managing Work Permit Systems and Safety Observer Responsibilities Unit Standards in this course include:

- US: 17589 Monitor, control and audit work permit systems
- US: 17596 Demonstrate knowledge of safety observer responsibilities in the workplace

These courses can be combined for a discounted rate or either Unit Standard 17589 or 17596 can be added to the Permit Issuer/Permit Receiver course as required.
